75 x 75  
100 x 100

- Over 1.9m of reach.
- Medical grade solution.
- Monitors & Keyboards up to 13.6Kg
- Billet Aluminium construction.
- Can be cleaned with “Hospital Grade” solutions (10,000 parts bleach per 1,000,000).

The ErgoMounts Ultra Long Reach Monitor Wall & Wall Track Overhead Arm is one of the longest monitor arms available on the market to date, with a fully extended reach of just over 1.9 meters (Over 6 feet). The Ultra Long Reach Arm is effortless to move and adjust despite its large size. Internal cable management protects wires, simplifies cleaning and prevents third party access to AV equipment.

At the end of the swing arm is one of our most popular gas assisted mounts, The Ultra 182. This enables the screen to be adjusted an additional 610mm vertically and rotated a full 360°. The monitor easily tilts 90°, swivels and rotates to any viewing angle using the convenient monitor handle.

This mount has been designed to support screens weighing up to 12.7Kgs with VESA 75mm x 75mm or VESA 100mm x 100mm interface plates..

### Manufactured to order...

All of our Medical Grade Mounting Solutions are manufactured to order by our partners in the United States. These are then air freighted to us before being hand inspected and assembled by our talented team of technicians at our headquarters in Hampshire, United Kingdom. This allows us to offer 1000's of combinations on our products as well as bespoke design but at a much shorter lead time than our competitors who often rely on Far East manufacturing.
