- Medical grade solution.
- Supports monitors up to 13.6Kg.
- Can be folded against the wall when not in use.
- Tilt & swivel adjustment.
- Billet Aluminium construction.
- Compact hospital monitor arm.
- Can be cleaned with “Hospital Grade” solutions (*10,000 parts bleach per 1,000,000*).

The Ultra 65 Wall Mount Monitor Arm is a state of the art screen mounting solution designed specifically for use in healthcare or clean room environments. This mount proves that sometimes simple really is better. The compact solution still provides a good level of tilt and swivel adjustment and is available in two configurations: Compact or Extended (360mm).
The Ultra 65 can swivel the screen up to 180° and provides up to 75° of tilt. The mount itself is attached to the wall with a solid plate that will enable the arm to provide years of reliable service.
This mount can support 99.9% of screens with either a VESA 75mm x 75mm or VESA 100mm x 100mm interface plate and weighing less than 13.6Kg.

Manufactured to order...

All of our Medical Grade Mounting Solutions are manufactured to order by our partners in the United States. These are then air freighted to us before being hand inspected and assembled by our talented team of technicians at our headquarters in Hampshire, United Kingdom. This allows us to offer 100’s of combinations on our products as well as bespoke design but at a much shorter lead time to our competitors who often rely on Far East manufacturing.

Installation & Maintenance

The ErgoMounts Planned Preventative Maintenance Programme (PPM) covers bi-annual visits from one of our highly trained technicians. They ensure all of our arms are working as intended and replace or repair any worn parts. This often extends the working life of the mounts by several years resulting in significant savings. Contact us to find out more about our installation and maintenance plans.
